N. Raghu Venkata Reddy

+91 9392311734 | raghuuu2005@gmail.com | B.Tech (4th Year) – Computer Science & Engineering

Targeting: Software / IT & General Roles

EDUCATION

B.Tech – Computer Science & Engineering *2023 – 2027*
Sreenidhi Institute of Science and Technology, Hyderabad

TECHNICAL SKILLS

Languages: Java, Python
Web Technologies: HTML, CSS, JavaScript (Basics)
Libraries / Tools: OpenCV, MediaPipe
Core Subjects: Computer Networks, Operating Systems, SQL / DBMS
Soft Skills: Good Communication, Attention to Detail, Problem Solving

INTERNSHIP EXPERIENCE

Python Programming Intern – CODSOFT *August – September 2025 | Remote*

- Built 5 real-world Python CLI applications including a Task Manager, Calculator, Password Generator, Rock-Paper-Scissors game, and Contact Book.
- Practiced version control and project submission using GitHub.
- Strengthened core Python skills: loops, conditionals, functions, data structures, and error handling.
- Improved debugging, code modularity, and structured programming practices.

PROJECTS

Hand Gesture Recognition System *Python, OpenCV, MediaPipe*

- Built a real-time hand gesture recognition system that captures and processes live webcam frames using OpenCV.
- Used MediaPipe to detect and track hand landmarks, enabling accurate identification of hand position and shape.
- Implemented gesture classification logic to recognize gestures such as thumbs up, open palm, peace sign, and fist.
- Displayed the detected gesture as real-time on-screen output overlaid on the live webcam feed.

Face Emotion Detection *Python, OpenCV, Deep Learning*

- Created a system to classify facial emotions (happy, sad, angry, surprised, etc.) from live video.
- Integrated pre-trained deep learning models with OpenCV for real-time emotion recognition.

Maze Solver – Pathfinding Visualizer *Python*

- Implemented and visualized a maze-solving algorithm, demonstrating pathfinding concepts interactively.
- Designed for clear step-by-step visual output to aid understanding of graph traversal techniques.

CERTIFICATIONS & ACHIEVEMENTS

- CODSOFT Python Programming Internship Certificate (Aug–Sep 2025)
- Relevant coursework: Data Structures & Algorithms, OOP, DBMS, Computer Networks, Operating Systems
